Chemistry and Physics of LIPIDS

Volume contents

Volume 82 (1996)

A.V. Zhukov, E.I. Kusnetsova, A.G. Vereshchagin (Russian Federation) *Mild non-enzymatic hydrolysis of an ester bond between the orthophosphoric acid and ethanolamine residues in phosphatidylethanolamines* 1
K. Schorn, D. Marsh (Germany) *Lipid chain dynamics in diacylglycerol-phosphatidylcholine mixtures studied by slow-motional simulations of spin label ESR spectra* 7
D. Dadarlat, D. Bicanic, J. Gibkes, W. Kloek, I. van den Dries, E. Gerkema (Romania, The Netherlands) *Study of melting processes in fatty acids and oils mixtures. A comparison of photopyroelectric (PPE) and differential scanning calorimetry (DSC)* 15
A. Mlakar, G. Spiteller (Germany) *Dihydroxy and hydroxyoxo fatty acids as products of nonenzymic lipid peroxidation of polyunsaturated fatty acids* 25
G. Knothe, M.O. Bagby, D. Weisleder (USA) *Evaluation of the olefinic proton signals in the ^{1}H-NMR spectra of allylic hydroxy groups in long-chain compounds* 33
A. Dudda, G. Spiteller, F. Kobelt (Germany) *Lipid oxidation products in ischemic porcine heart tissue* . 39
Z. Huang, J.M. Seddon, R.H. Templer (UK) *An inverse micellar Fd3m cubic phase formed by hydrated phosphatidylcholine/fatty alcohol mixtures* 53
T. Inoue, I. Motoda, N. Hiramatsu, M. Suzuki, K. Sato (Japan) *Pressure effect on phase behavior of binary mixtures of cis-unsaturated fatty acids* 63
F. Hwang, D. Zhao, J. Chen, X. Chen, J. Ni (China) *Effect of lanthanum ions on the lipid polymorphism of phosphatidylethanolamines* 73

Short Communications

H.A. Van Houte, R.H. Busson, G.G. Parmentier, H.J. Eyssen, P.P. Van Veldhoven, G.P. Mannaerts, M.I. Baes, P.E. Declercq (Belgium) *Synthesis of [1-^{14}C] nordolichoic acid* 79
A.S. Bushnev, V.I. Shvets, H.S. Hendrickson (Russia, USA) *Synthesis of rac-1-deoxy-1-thio-dihydroceramide-1-phosphate* 85

M.J. Lawrence, S.M. Lawrence, S. Chauhan, D.J. Barlow (UK) *Synthesis and aggregation properties of dialkyl polyoxyethylene glycerol ethers* 89
G. Dobson, W.W. Christie, J.L. Sebedio (UK, France) *Monocyclic saturated fatty acids formed from oleic acid in heated sunflower oils* 101
D.L. Bernik, E.A. Disalvo (Argentina) *Determination of the dimerization constant of merocyanine 540 at the membrane interface of lipid vesicles in the gel state* 111
S. Maruyama, H. Matsuki, H. Ichimori, S. Kaneshina (Japan) *Thermotropic and barotropic phase behavior of dihexadecylphosphatidylcholine bilayer membrane* 125
A. Ferraretto, S. Sonnino, M.R. Soria, M. Masserini (Italy) *Characterization of biotinylated liposomes sensitive to temperature and pH: new tools for anti-cancer drug delivery* 133

P.A. Wallace, D.E. Minnikin (UK) *Synthesis of racemic 2,4-dimethyltetradecanoic acid from Mycobacterium kansasii* 141
A. Checchetti, A. Golemme, G. Chidichimo, C. LaRosa, D. Grasso, P. W. Westerman (Italy, USA) *Effect of 1-palmitoyl lysophosphatidylcholine on phase properties of 1,2-dipalmitoyl phosphatidylethanolamine: a thermodynamic and NMR study* 147
Z.Y. Chen, P.T. Chan (Hong Kong) *Antioxidative activity of green tea catechins in canola oil* 163
M. Weisser, G. Spiteller (Germany) *Increase of aldehydic compounds derived from plasmalogens in the brain of aged cattle* 173
H.W. Meyer, B. Dobner, K. Semmler (Germany) *Macroripple-structures induced by different branched-chain phosphatidylcholines in bilayers of dipalmitoylphosphatidylcholine* 179

Short Communication
W. Pohle, C. Selle (Germany) *Fourier-transform infrared spectroscopic evidence for a novel lyotropic phase transition occurring in dioleoylphosphatidylethanolamine* 191
